

DAFA Universal Tip Protector

Fitting instructions using tape

1

Slide on the tip protector as far as it will go.

2

Tighten the temporary strap by hand.

3

Place the end of the tape on the top extension.

Make sure the loose strap-end is covered by the tape.

4

Wrap the tip protector very tightly by pulling hard using both hands.

The first layer should not extend past the tip protector.

5

After winding 5 times around, cut off the roll of tape. Ensure the last layer only touches the blade.

Ensure the tape is tight and the tip protector cannot be pulled off by hand.

Tip protector item no.: 620027247

Red tape for UTP 100 mm item no.: 620029462

The information in these fitting instructions is intended to assist you in using DAFA products. The user should determine the suitability of DAFA's products for each application.

The invisible lines that make wonders happen

At DAFA we are experts in specialized products and total solutions that seal, absorb and protect.

With uncompromising product quality, constant innovation and close collaboration with customers we contribute to successful projects in industries where attention to detail is the difference between success and failure.

Our experience covers three quarters of a century, and our solutions are at work all over the world. Our global supply chain means that we deliver to any location efficiently and at competitive prices.
